Education

The University of Texas at Austin

B.S., ELECTRICAL AND COMPUTER ENGINEERING, MAJOR GPA: 3.5

Austin, TX

Fall 2018

- **Coursework:** Algorithms, Concurrent and Distributed Systems (Java Concurrency, Cloud Computing), Software Design and Implementation (C/C++, Java, Data Structures), Software Testing, Introduction to Computing Systems (Assembly, Computer Architecture), Introduction to Embedded Systems (ARM Assembly)

Employment

Amazon.com

SOFTWARE ENGINEER INTERN

- TBD

Seattle, WA

May 2017 to Aug 2017

Intel Corporation

POST SILICON VALIDATION INTERN

Austin, TX

Oct 2016 to Present

- Integrated new testing functionality into validation testing codebase and developed a graphical user interface in Kivy to simplify selection and loading of tests
- Developed Python scripts to automate web scraping of HTML test logs, saving the data into easily traversed spreadsheets with external APIs
- Optimized script run-time efficiency, significantly reducing time costs for validation team

Projects

Chat Client

[HTTPS://GITHUB.COM/JULIANDOMINGO/CHATROOM](https://github.com/JulianDomingo/ChatRoom)

- With a partner, developed a chat client in Java with socket programming using observer design pattern
- User could communicate with other users from different machines, privately message users, send emojis, login with a unique username, logout from the server, and see who is online real-time with the UI written in JavaFX

Embedded Systems Game

[HTTPS://GITHUB.COM/JULIANDOMINGO/EE319K](https://github.com/JulianDomingo/EE319K)

- With a partner, designed from the ground up a "dungeon crawler" game in C through a microcontroller and won third place in a class of 50+ teams
- Implemented finite state machine for the player to change rooms, concurrent background music, and used double buffering to improve rendering quality

Blip Language and Parser

[HTTPS://GITHUB.COM/JULIANDOMINGO/EE312/TREE/MASTER/PROJECT6](https://github.com/JulianDomingo/EE312/tree/master/Project6)

- Created programming language in C++ that parsed input from text file and handled integer instantiation and computation, output to console, conditionals, and while loops
- Utilized polish notation in the form of expression trees to handle integer computation

Academic Involvement

Codepath.com

TEACHING ASSISTANT - WEB SECURITY

Austin, TX

Jan 2017 to Present

- Lead weekly discussion sessions overviewing topics in web security fundamentals, and assist students in assignments applying these fundamentals utilizing PHP and a MySQL database

Skills

| | |
|-------------------------|---|
| Languages | Java, C, Python, PHP, SQL, C++ |
| Web Development | HTML, CSS, JavaScript |
| Frameworks/Tools | jQuery, Bootstrap, Kivy |
| Other | Voltmeter, Oscilloscope, Soldering, Circuit Building and Analysis |
