Education

The University of Texas at Austin

B.S., ELECTRICAL AND COMPUTER ENGINEERING, MAJOR GPA: 3.5

Austin, TX
Fall 2018

- **Coursework:** Algorithms, Concurrent and Distributed Systems (Java Concurrency, Cloud Computing), Software Design and Implementation (C/C++, Java, Data Structures), Software Testing, Introduction to Computing Systems (Assembly, Computer Architecture), Introduction to Embedded Systems (ARM Assembly)

Employment

Amazon.com

SOFTWARE ENGINEER INTERN

- TBD

Seattle, WA
May 2017 to Aug 2017

Intel Corporation

POST SILICON VALIDATION INTERN

- Integrated new testing functionality into validation testing codebase and developed a graphical user interface in Kivy to simplify selection and loading of tests
- Developed Python scripts to automate web scraping of HTML test logs, saving the data into easily traversed spreadsheets with external APIs
- Optimized script run-time efficiency, significantly reducing time costs for validation team

Austin, TX
Oct 2016 to Present

Projects

Personal Website

JULIANDOMINGO.GITHUB.IO

- Designed a website portfolio to gain experience in web development technologies
- Implemented JavaScript and JQuery to integrate a randomized on click background algorithm to display all backgrounds once before visiting an old background

Chat Client

HTTPS://GITHUB.COM/JULIANDOMINGO/CHATROOM-1

- With a partner, developed a chat client in Java with socket programming using observer design pattern
- User could communicate with other users from different machines, privately message users, send emojis, login with a unique username, logout from the server, and see who is online real-time with the UI written in JavaFX

Embedded Systems Game

HTTPS://GITHUB.COM/JULIANDOMINGO/EE319K

- With a partner, designed from the ground up a "dungeon crawler" game in C through a microcontroller and won third place in a class of 50+ teams
- Implemented finite state machine for the player to change rooms, concurrent background music, and utilized double buffering to improve rendering quality

Academic Involvement

Codepath.com

TEACHING ASSISTANT - WEB SECURITY

- Lead weekly discussion sessions overviewing topics in web security fundamentals, and assist students in assignments applying these fundamentals utilizing PHP and MySQL

Austin, TX
Jan 2017 to Present

Skills

Languages	Java, C, C++, Python, SQL, PHP, ARM Assembly
Web Development	HTML, CSS, JavaScript
Frameworks/Tools	jQuery, Bootstrap, BeautifulSoup, Kivy
Other	Voltmeter, Oscilloscope, Soldering, Circuit Building and Analysis
